

PUBLIC NOTICE

RE: COVID-19

October 13, 2020

The Ingham County Health Department notified MMLA on Monday, October 12 regarding an MMLA 2nd grade student who has tested positive for COVID-19. This student was in the building for only one day during the health department's contagion window; which was on October 6, 2020. All parents associated with the eleven students in the 2-A classroom were contacted and given quarantine information. The three MMLA staff members working with 2-A students in the classroom have all been tested and given quarantine information; all staff COVID-19 test results came back negative. We are very confident that our health and safety guidelines are working.
