

PUBLIC NOTICE

RE: COVID-19

March 18, 2021

A parent notified MMLA on Thursday, March 18, 2021 regarding an MMLA 2nd grade student who has tested positive for COVID-19. This student was in the building for just one day during the health department's contagion window; which was on March 15, 2021. Student did not start experiencing symptoms until January 25. All parents associated with the eleven students in the 2-A classroom were contacted and given quarantine information. The three MMLA staff members working with 2-A students in the classroom have also been given quarantine information. We are very confident that our health and safety guidelines are working.
