

PUBLIC NOTICE

RE: COVID-19

April 20, 2021

The family of an 8th grade student notified MMLA on Monday, April 19, 2021 regarding an MMLA 8th grade student who has tested positive for COVID-19. This student was in the building for two days during the health department's contagion window; which was on April 15 & 16, 2021. All parents associated with the other students in this classroom were contacted and given quarantine information. The three MMLA staff members working with 8th grade students on these days have also been given testing and quarantine information. We are very confident that our health and safety guidelines are working.
