

PUBLIC NOTICE

RE: COVID-19

April 28, 2021

The family of a 3rd grade student notified MMLA on Tuesday, April 27, 2021 regarding an MMLA student who has tested positive for COVID-19. This student was in the building for one partial day during the health department's contagion window; which was on April 26, 2021. All parents associated with the other students in this classroom were contacted and given quarantine information. The MMLA staff members working with the 3rd grade students on these days have also been given testing and quarantine information. We're requiring that all 3rd grade students attend virtually through the end of this week. We are very confident that our health and safety guidelines are working.
